Jorge Talquenca Tango Studio Mälzgasse 12a 1020 Vienna

Third part of Communication-Improvisation-Musicality workshop by Katrin Urwitz and Jorge Frias (Buenos Aires)

- Musicality applied to the dance. Melodic and rhythmical, what do we dance and when.

Katrin Urwitz and Jorge Frias live and teach tango in Buenos Aires. Their style of dancing is highlighted by a natural way of movement, fine musicality and strong connection that enhances the dialogue, making possible fluid communication or even role change during the dance. Their classes are well known for breaking stereotypes and opening new opportunities of communication to dancers. This year they offer a seminar 'Communication-Improvisation-Musicality' where we will work with technique and musicality in a context of couple movement. We will explore the organization of our own body and that of the couple. We will work with the embrace as the vessel of our communication, to be more clear and have more integrity in our leading and following. Furthermore, we will work with music and different qualities of movement to enjoy more all that is happening inside the music and the couple in the dance.
