BOLEOS

This intense workshop offers a complete exploration of the topic.

How both bodies interact, how cause and effect compenetrates each other. Both leaders and followers will be led through a technique session in the first part of the experience where they will improve the aesthetics and the efficiency of the movement, then they will be ready to lead and follow all the boleos offered in the second part of the experience. Various linear and circular boleos will be presented. Recommended for advanced dancers, all levels allowed!
