AMIGOS DEL TANGO Workshop "Secrets of close embrace" by Viacheslav Ivanov and Alexandra Bobrova. All levels  
Alexandra Bobrova amigospeltango.club@gmail.com  
Amigos del Tango Augasse 2/6, 1090, Wien

Only 1 day in Vienna!

Workshops by maestro from Slovenia Vyacheslav Ivanov are always new discoveries, wow ideas and secrets that improve the quality of your tango and the perception of yourself in tango. Seize the moment!

18.00-19.00 "Secrets of close embrace." All levels.

What does a close embrace even express? How to create comfortable and pleasant dancing in close embrace.

Special emphasis will be placed on comfort and convenience: how to maintain contact, how not to "press" or over-squeeze the body, optimal muscle tone and other important details. 19.00-20.00 "Cascada de sacadas"

It's a favorite Slava's tango element.

First of all, it's a beautiful movement! :))

There are many varieties of sakadas - "male", "female", at different steps, etc...

Sacades involve complex, interesting interactions between dancers.

(sometimes it's like hunt for legs :))

Sakadas give us the opportunity to bring a certain special dynamic to the dance.

It is interesting to insert a combination of several sacadas into a dance - cascade of sacadas.

And, of course, sacadas are a great example for practicing spinning techniques! (which is what we will focus on) PRICE
